

PROJECT LOCATION

Shiawassee County,
Michigan

PROJECT SIZE

80 (MWac)/104 MWdc of solar
90 MW of energy storage

FENCED ACRES

approximately 585

PROJECT LIFE

35 years

Arevon, a U.S. energy leader, is developing a solar-plus storage project in Shiawassee County, Michigan.

Local landowners have agreed to lease land sufficient to host 80 megawatts (MWac)/104 MWdc of solar and 90 MW of energy storage. The Bell Solar-plus-Storage Project offers landowners an income diversification strategy while preserving the land's ability to return to agricultural use at the conclusion of the project. Bell Solar-plus-Storage plans to work with local municipalities to coordinate Host Community Agreements (HCA's), which will support the goals and initiatives of the solar-plus-storage facility and the host communities.

The success of the Bell Solar-plus-Storage Project relies on developing a project that can successfully balance economic, technical, regulatory and community goals. We look forward to working together to achieve balance and developing an energy facility that Shiawassee County will be proud to host.

EXPERIENCED DEVELOPER

Arevon is a U.S. energy leader committed to powering America with affordable, reliable, and secure homegrown energy. Headquartered in Scottsdale, Arizona, and with a regional office in New York City, the company's experienced and dedicated staff develops, finances, builds, owns, and operates renewable energy projects nationwide. With a strong track record in utility-scale solar and energy storage, Arevon is a trusted partner to utilities and businesses seeking cost-effective, sustainable energy solutions. By prioritizing American manufacturing and domestic energy production, the company invests in U.S. jobs, strengthens local economies, and advances the country's energy independence. TIMELINE

- **2019**
Arevon initiates development of Bell Solar-plus-Storage
- **2024-2025**
Engineering and environmental studies start
- **2025-2026**
Permitting and pre-construction activities
- **2027**
Construction start
- **December 2027**
Commercial operation of Bell Solar-plus-Storage
